Growtopia can' t change password

A recent entry made yesterday to a post on facebook's blog (via TechCrunch) revealed that the company left millions of Instagram passwords in a readable format. Initially, Facebook said that tens of thousands of Instagram subscribers were involved. Facebook says that usually its login system is designed to mask passwords using techniques that make them unreadable. The good news is, if you believe Facebook, its investigation has shown that no one from inside or outside the company accessed this password. Of course, since Facebook updated its original blog post after a month of increasing the number of affected passwords, who knows what they might say in another month? Facebook bought Instagram for about \$1 billion in 2012. The company recommends that Facebook, Instagram or WhatsApp customers use two-factor authentication when signed in. In addition to entering a password, the code is sent to the customer's smartphone which is also required for a successful login. To set this up, go to the settings menu from your Facebook app and click Security and Login. Sign up for our newsletter! Instagram accounts are a popular target for hackers. I know firsthand, because someone pretended to be me to try and steal some accounts. Luckily they didn't work out, but if you have a weak password, you may not be so lucky. Let's see how to turn your Instagram password into something a little more secure. RELATED: Your Password Is Terrible, and It's Time to Do Something About It Open the Instagram app and go to your profile page. Tap the Settings icon in the upper-right corner and then choose Change Password. Enter your Current Password and Your New Password twice. Click Finish and your new password will be set. If you don't have access to your phone, you can also change your Instagram password www.instagram.com/accounts/password/change/. Enter your Old Password and New Password twice, click Change Password, and your password will be updated. A strong password is just one way to protect your Instagram account. If you want to keep it safe, you'll also need to turn on two-factor authentication. Whether you suspect that someone has gained unauthorized access to your Facebook account or you simply forgot your Facebook password so you can't log in, you can reset your password easily on the Facebook website or with the Facebook iOS or Android app. If you're already logged in to your Facebook account or you can sign in and just want to change your password, these steps get the job done. When you sign in to your account on Facebook.com website, select the down arrow in the upper-right corner and select Settings. If you're using the Facebook app, tap the menu icon at the top of the Android app or at the bottom iOS. Then scroll down to tap & Settings; & Settings. Select & Security; Login & Change password. Enter your current password and new password. Retype the new password. When you're done, done, Save Changes. Store your new password in a safe place, such as in a password manager. If you can't log in to Facebook because you forgot your password, you'll need to follow another process. Open Facebook in a web browser or open the Facebook app on your mobile device. Try to log in to your account with your email address and any password that you think you can remember. If your login details are incorrect, you won't be able to access your account. Don't navigate away from pages or apps. Instead, select Forgot Password? under the login field. Depending on the account information associated with your Facebook account, you're prompted to reset your password using one of the following three methods: Verify through your Google account (using Gmail)Verify via email addressVerified via phone number Make your choice and select Continue. If you choose to reset your password using a phone number, you won't be able to do so if you turn on two-factor authentication with that number. You must use a different phone number or email address. Follow the onscreen instructions to complete the verification process. Enter your new Facebook password in a specific field and select Continue. Depending on the method you choose, you may receive a text message or email with a code that you must enter into Facebook for verification purposes. Keep your new password in a safe place. One of the best password managers can be an excellent solution for storing your passwords. If you can no longer access the phone number or email address you've now Associated with your Facebook account, Facebook suggests a few different things you can try to regain access to: Thank you for telling us! Tell us why! With Adrian Grahams Set a password for apple iPhone Can protect your data and prevent unauthorized calls if the phone is lost or stolen. Anyone trying to use an iPhone should enter the correct password, known as a passcode on the iPhone, as soon as they turn on or wake the device. Changing your passcode regularly is a sensible security step to prevent unauthorized access to your iPhone. Change the passcode through the Apple iPhone Settings menu. Turn on apple iPhone. Tap Choose Settings on the iPhone screen, followed by General and Passcode Lock. Enter the current passcode when prompted. This displays the Passcode Lock settings page. Tap the Change Passcode option on the screen. Enter the current four-digit passcode in the Enter Your Old Passcode dialog box. Enter a new four-digit passcode and then re-enter it when prompted to confirm the new password. This displays the Passcode Lock settings page again. Read more options and choose your preferences with drop-down menus and sliders. You can select the number of passed before your iPhone requires you to enter a passcode. By Kenneth Coppens Miniclip is a popular online gaming website with thousands of thousands almost every genre. While the game is completely free to play, gamers have the option to sign up for a Miniclip account. Accounts give users the ability to rate games, track high scores, earn trophies and interact with other players. Your login password can be changed at any time, if forgotten or if you just want to change it for any reason. If you know your current password, skip it directly to Step 5. If you forgot your password, you must start with Step 1. Go to the main Miniclip page and click Sign In in the upper-right corner of the page. Click the Sign In tab. Click the Forgot Password link? in the login section. Type your email address in the box provided and click Send New Password to My Email. Use the email address associated with the Miniclip account. Check your email for messages from the Miniclip Community. Click the Reset link in the email message. A new window will appear with confirmation of password and note change requests to check your email again. Check your email for a second message from the Miniclip Community. This message contains a temporary password for sign-in. Sign in to your account with a new password. To change your password, click Edit next to the sign-in section and follow the Change your password link at the top of the page. Welcome! Advertising Practitioner, LLC. collect data to serve the best personalized digital content, services and ads. We partner with third-party advertisers, who may use tracking technology to collect information about your activity on sites and apps across devices, both on our site and across the Internet. You can find more information about your privacy choices in our privacy policy. You can create a Data Subject Request at any time. Even if you choose not to track your activity by third parties for advertising services, you will still see an personalized ads on our site. By clicking continue below and using our site or application, you agree that we and our third party advertisers may: transfer your personal data to the United States or other countries, and process your personal data to serve you with personalized advertising, subject to your choices as described above and in our privacy policy, this link is to an external site that may or may not meet accessibility guidelines. On the main menu bar, click Personal Information in & Which & Password to change your password. The following guidelines are intended to help you create passwords that others will find difficult to find. Your password must be: 8 to 12 characters long has at least one letter and one number has at least one special character, such as ., ?, & , & , #, or ! does not have case-sensitive space not equal to User Id not equal to three words For your latest security purposes, avoid using clear words such as your name, the name of your children or spouse, your phone number, or your date of birth. Your password is sensitive, that is, when you register with a password in all capital letters or all lowercase letters, enter all capital letters or all lowercase letters when you sign in; and when you register with a mixture of capital and lowercase letters, then enter the correct password when signing in. Change Old Password Password - Enter your current password to verify your identity. New Password - Enter from 8 to 12 characters for the new password according to the instructions above. Confirm New Password - Retype your new password, and then click Update to record the changes. Note - When you change your password and have an email address registered in your account, you will receive an email notification regarding changes/activities in your account. Account.
